

Aaron Platform

A new decentralized Financial Platform utilizing Multi BlockChain.

Aaron Platform is...

The Aaron Platform is a new financial platform that combines stable coin(TabiPay) with fluid value coin(EveryCoin) to solve the problems of blockchain speed and high variability of cryptocurrency.

We have redefined financial services and changed the paradigm. Financial service will be transformed from a previous strictly graded, exclusively centralized systems to a decentralized, comprehensive and scalable systems.

Aaron platform is consist of

- EveryCoin(Main BlockChain)
- TabiPay(Side BlockChain)
- Eco-Chain System(BlockChain system for digital asset)
- Aaron Exchange(TabiPay, EveryCoin based market)
- Aaron Wallet(DSW - Digital Smart Wallet)

We know the problems

A third of the global population (1/3) can not still use mainstream finance. The people who are financially excluded are suffering from high risks and expensive fees by relying on cash and non-financial markets.

Blockchain technologies have two defects in using in daily life. Low speed and high fees of transmission make it difficult that blockchain becomes a payment method.

Our vision is

The first, by creating an unrestricted financial system, we make everyone in the world can receive the benefits of financial services for free.

The second, everyone in the world gets out of the existing financial framework and will be able to open and use new financial accounts free of charge. And Fiat currency, Cryptocurrency, and Digital currency can be exchanged one another conveniently.

Why is it useful?

The TabiPay is the best stable coin to use for pay, transfer, withdraw.

- We escrow 100% of the TabiPay by cash.(1 THB for 1 TabiPay)
- The TabiPay is issued based on EveryCoin standard. It means Whenever we issue the TabiPay, we have to deposit EveryCoin. (Total Value of the TabiPay has to be same as deposited value of EveryCoin).
- You can use Prepaid Card for using TabiPay. We have a partnership with global payment card system.

It is safe, free, fast, easy to use.

How it works...

The EveryCoin is the most valuable coin for digital assets.

- If you use TabiPay a lot, the value of EveryCoin increases. (As TabiPay is being issued more and more, EveryCoin quantity will be reduced in the market – EveryCoin standard).
- EveryCoin can be exchanged easily with TabiPay and other cryptocurrencies. It means you can use, transfer, withdraw EveryCoin whenever you want.
- EveryCoin is the key currency for the Aaron Exchange.

Using TabiPay, Rising EveryCoin.

Technology

Structure

Aaron Platform has a unique structure called Main BlockChain and Side BlockChain. And they are connected each other in parallel or series.

Consensus

- Hybrid Consensus
- POW(Proof of Work)
- DDPOS(Double Delegated Proof of Stake)

Technical Background

- Smart Contract
- BLAKE-256 Hash Algorithm
- Schnorr signature
- DAO (Decentralized Autonomous Organization)

What's new

- Eco-Chain system
- DSW(Dynamic Smart Wallet)
- DDPOS(Double Delegated Proof of Stake)

- ICO Notification -

Token Distribution

Schedule

TOKEN SALE PLAN

Category	Amount	%	Period	Bonus
ENTERPRISE SALE	3,552,000,000	10%	~2018. 08. 20	
PRIVATE SALE	12,432,000,000	35%	~2018. 08. 20	
PRE SALE 1	7,104,000,000	20%	18.08.25~18.09.20	40%
PRE SALE 2	8,880,000,000	25%	18.09.22~18.10.20	25%
ICO	3,552,000,000	10%	18.10.25~18.12.25	
TOTAL	35,520,000,000	100%		

Roadmap

- 2019. 1Q TabiPay Beta Open
- 2019. 1Q EveryCoin Global Exchange open
- 2019. 2Q TABI Global Network (Thailand / Vietnam / Indonesia)
- 2020. 3Q Aaron Block Chain Test net
- 2021. 2Q Aaron Platform Beta open
- 2021. 2Q Aaron Block Chain Main net launching

Who we are...

Established in the USA in 2014, Aaron System has around 100,000 members in US, China, South Korea, the Philippines, Vietnam, and Thailand.

The company develops and operates "TabiPay" system and has recently launched the newly-developed system.

Early this year, the company completed the development of the blockchain technology for Aaron platform and established Aaron System Company Limited in Thailand.
